

Healthy, Hunger-Free Schools Campaign

Opportunities for Engagement

The mission of the Healthy Hunger Free Schools Campaign is to ensure all Minnesota children have access to breakfast and lunch at school at no cost to them.

Background

Hunger in Minnesota is unacceptably high. 1 in 6 kids in Minnesota is food insecure.

Adequate nutrition is a precursor to success in schools. Students who participate in school meals have improved attendance, and academic achievement as well as decreased tardiness. Like busing, books, internet access and proper hydration, food is required for learning.
